There is more Catarra in this section of the country than all other discases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarra to be a constitutional disease and therefore requires constitutional treatment. Hail's Catarra Cure, manufactured by F. J. Chency & Co., Toledo, Otio, is the only constitutional cure on the market, it is taken internally in doses Com 10 drops to a tenspoinful it acts directly on the blood and mucous surfaces of the system.
